ABOUT THE BAND

KOMODO FOX is a Berlin-based rock band created in 2018 by Brazilian songwriter and multi-instrumentalist **Caio Donini** (lead vocals, guitar). With high energy, catchy melodies and a dark sound, their music talks about society, humanity, the present and the future.

Their debut EP **"Year Zero"** (2021), mixed and mastered by Chriz Falk (Grossstadtgeflüster), got featured in major German outlets such as **STAR FM**, **Fritz Unsigned**, **VISIONS Magazin** and **RADIO BOB!**. Following the exciting initial feedback, the band went on a self-organized Germany tour in early 2022 and came back with new fans, many great stories to tell and a lot of enthusiasm to record new music.

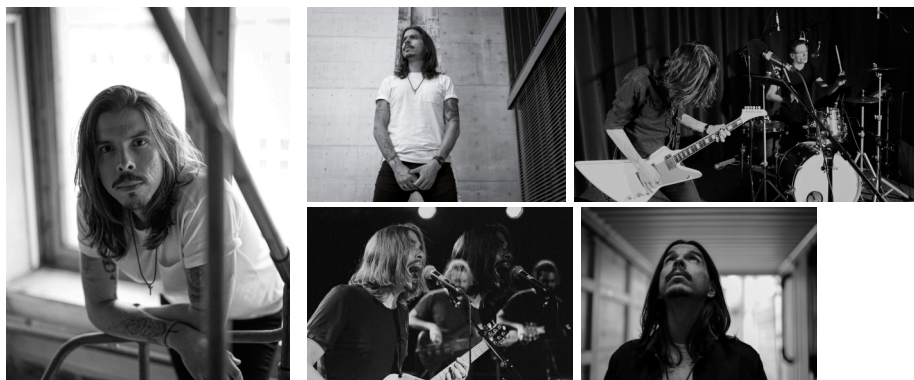

Their second EP, **"BROKEN PARTS MADE WHOLE"**, released in September 2023, saw the band dialing up their DIY meter, with all songs written, produced and recorded by themselves. This time around they dove deeper into what they called a "modern stoner" sound, drawing more from the influences of Queens of the Stone Age, Death From Above 1979 and Royal Blood.

Currently the band is focussed on writing new material, to be released soon.

PRESS

"Stylistically Komodo Fox sits somewhere between Muse, Royal Blood and the Foo Fighters - it is a grittier alternative with proggy elements (Pride), a penchant for big choruses (Nightcrawler) and rich riffing (Survivor). Very ambitious and very successful. "

VISIONS MAGAZINE (GERMANY)

"With an energetic sound, the band blends elements from grunge, alternative rock and metal."
