**Label:** Self-released

**Genre:** Alternative Rock, Post-Grunge

**Hometown:** Berlin, Germany

**Influences:** Muse, Foo Fighters, Queens of the Stone Age

**Sounds like:** Placebo, Biffy Clyro, Royal Blood

## BIOGRAPHY

With high energy, catchy melodies and a dark sound, KOMODO FOX talks about society, humanity, the present and the future.

The band came back from a self-organized Germany tour for their first EP, Year Zero, in early 2022, with many great stories to tell and a lot of enthusiasm to record new music.

Their newest EP sees them dialing up their DIY meter, with all songs written, produced and recorded by the band. This time around they dive deeper into what they call a "modern stoner" sound, drawing more from the influences of QUEENS OF THE STONE AGE, DEATH FROM ABOVE 1979 and ROYAL BLOOD.

"Our starting point for the EP was always the music and not a specific concept. But we realized that this collection of songs has something in common, whether it's about being afraid of the future or standing up for what you believe in; they all talk about resilience, which is ultimately what inspires us in times of crisis: our ability to get back up after going through hardship" says Caio Donini, the band's frontman.

Their second EP, BROKEN PARTS MADE WHOLE, was released on the 29<sup>th</sup> of September 2023. They are currently focussed on live performances to promote the release and writing material for their debut album.

## PRESS

"Stylistically Komodo Fox sits somewhere between Muse, Royal Blood and the Foo Fighters - it is a grittier alternative with proggy elements (Pride), a penchant for big choruses (Nightcrawler) and rich riffing (Survivor). Very ambitious and very successful. "

**VISIONS MAGAZINE (GERMANY)**

"With an energetic sound, the band blends elements from grunge, alternative rock and metal."

**TENHO MAIS DISCOS QUE AMIGOS (BRAZIL)**
